

DIAMOND TOUGH™

INDUSTRIAL FURNITURE

BY BUILT-RITE BR INC.

For nearly two decades Built-Rite has offered a high-quality line of durable and functional products to the industrial furniture market. In an effort to offer our distributor partners a new product option while maintaining the product integrity we are known and trusted for, we are proud to introduce our “Diamond Tough” line. We identified three of our strongest product groups and modernized them with actual polished aluminum diamond plate accents, different configurations and innovative options. Shop/Machine stands, mobile workcenters and cabinet workbenches are all now available through the “Diamond Tough” line. They are still essentially the same products available before, and currently, except they may attract a more discerning customer.

Shop/Machine Stands

DTSD23B94, CS4GNM

Mobile Workcenters

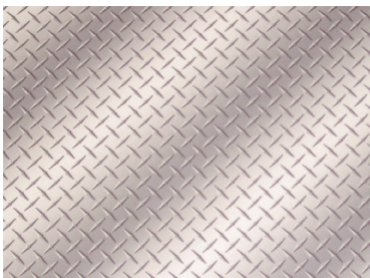

DTMC30450, DTBS304

Cabinet Workbenches

DTC4D14V97 with options: DL97 (2), OLF48, DTBR48, PEG24, PS4, DTL144, DTSL4

Available in our five standard color options, Beige, Black, Blue, Gray & Red. Top options are Wood Composition, Laminate (standard HPL), Maple Butcher Block and also our Diamond Plate digital laminate (printed HPL). Standard all-welded construction, tubular steel framework, heavy sheet steel panels and minimal assembly required - just like we've provided your customers for years!

Digital Laminate Print
